

# COMPANY PROFILE

# About Us

Pioneering company in Sri Lanka, introducing the innovative concept of “STARON®” Solid Surfaces to the island.

This premium countertop material has many commercial uses and is popular in both homes and businesses.

With over 15 years of experience, both locally and internationally, Mr. Ranjith Kulasinghe, the Managing Director & CEO of Monara Creations, is an expert in the field and is capable of providing professional solutions, fabrication, design, and installation of “STARON®” Solid Surfaces.

No matter the scale of a project, whether in the commercial or industrial sector, Monara Creations has all the resources necessary to efficiently execute it.

We work exclusively with globally renowned suppliers dedicated to providing high-quality materials.

Additionally, our team of professionals armed with innovative and cost-effective solutions works with technical expertise to ensure that our customers receive the best quality, service, and value for their money.

Monara Creations takes pride in being the greatest option for offering our customers the most fashionable designs available for kitchens, wardrobes, vanity cabinets, and television units using European technology.

We work hard to guarantee that our clients receive only the best supplies, expert advice, and outstanding care.

**Elevate your surroundings with Nitco Infinity, where innovation meets timeless design.**

## OUR VISION

**Our vision is to be recognized as a leading interior design company in the industry, known for our creativity, exceptional craftsmanship, and customer-centric approach. We strive to exceed client expectations by consistently delivering outstanding designs that reflect their unique style and preferences.**

## OUR MISSION

**Our mission is to provide innovative, functional, and aesthetically pleasing interior design solutions for pantry cupboards, wardrobes, and full house projects. We aim to transform spaces into personalized environments that enhance the lifestyle and well-being of our clients.**

# Company History

- Our company was started in 2007 and started with Starron Lotte Advanced Materials for vanity surfaces, countertops, and pantry tops.
- Since then, we've built a reputation for using only high-quality materials in a variety of goods, including vanities, cupboards, and walk-in closets.
- Today, we are happy to be recognized not just in Sri Lanka, but also globally, as a trusted provider of high-quality supplies.
- We are devoted to maintaining current with industry innovations and increasing our product line to meet changing consumer needs, ensuring continued growth and success.
- Our commitment to customer service and quality standards has led to our success, and we will prioritize these values in the future.
- We are optimistic about the future and look forward to increasing our reach and serving even more consumers in the years ahead.

# Our Partners

Like many Korean products, Staron is of great quality and comes in a range of colours and patterns.

Select from over 100 distinct types, which are then readily reproduced into the shape or inset you want.

Staron thermoforms into seamless curves for smooth finishes on walls, columns, and display fixtures.

With its nonporous durability, using for industries like health and food, where natural stone may not be suitable.

5-year warranty period.

Premium laminated veneer manufacturer based in Linyi, China.

Recognized for the quality and durability of our products.

Strong market presence and high branding across customer groups.

Globally impressed and trusted by major OEMs.

Synchronized products are available in 45 countries, Asia's largest net exporter.

Your one-stop solution for all decorative surface needs!
